California's Action

Governor Hiram Johnson of California, in a statement Saturday declared that it had taken the nerve of a progressive legislature to pass the anti-alien land measure through the senate. From the tone of the statement the land legislation appears to be purely a political move in the mind of the hungry governor, and an attempt is made to annex credit to the banner of the bull moose party.

Heretofore in his statements Johnson has refrained from mentioning politics in connection with the Japanese question and the entire nation was of the belief that such legislation was badly needed. Nevadans, familiar with the existing conditions in California, join in applauding the action of the senate in passing a measure that in time will serve to reduce the Japanese population in the neighboring state, but when the question is brought out as being a shrewd political move, the credit will not reflect upon the Johnson administration.

Nevada realizes the peril from Japanese immigration, although this state has been fortunate thus far in having but few members of that race within its confines. At the rate that California is being settled by the Nipponese it would be but a few years before the Sierras would be crossed and great colonies started within this commonwealth. On this account sentiment is found to be with the neighboring state in the effort to eliminate this disagreeable factor in land ownership, but it will take a very few days to change this sentiment if Governor Johnson continues to adopt the attitude of being the savior of the west.

Conservative Capital

During the early history of practically every new mining camp there is money in plenty to carry on prospect development work, says the Mining Record. Particularly is this true if the first showings made are rich, such as to attract wide attention.

Following this early period, however, there usually comes a time when interest begins to slacken, as the rich surface ores are exhausted, and deeper work must be done to prove the real merits of the camp.

When such a period has arrived in the history of any camp, there have always been found those who were willing to risk additional money, to spend the time and the effort in carrying through the necessary development work.

Perhaps, though, a camp may have "made good" from the beginning. Rich surface ores may have been plentiful, and leading direct to ore bodies that give steady results.

Whichever the case, when the merits of the camp have been fully proven, comes the time when conservative capital is at last interested and is willing to undertake further work, taking over and carrying on work at well established properties, or of taking up development work at prospect properties where the indications look good for the future.

Something like this is now in evidence at Cobalt, where it is reported that as many properties have changed hands during the past quarter as were transferred during the three years previous. Most of these properties, too, have been taken by English capital, where interest is being awakened now that there is no question but what the mines of Cobalt are able to pay profits.

When a camp has fully proven its merits then is the time when conservative capital consents to take hold.

To the capital that is willing to take a few risks belongs the profits that come from speculative work.

Conservative capital is willing to wait until it is absolutely shown that profits may be secured from work in that particular camp.

Receiver Frank L. Wildes of the State Bank and Trust company, has started a libel suit against the Tonopah Bonanza, claiming that paper has damaged him to the extent of \$30,000. The Bonanza, like nearly every other paper in the state, took occasional raps at the bank receiver, and the many expressions set forth in the different publications seemed to have made a hit with the general public, and especially with those who lost money in the State bank when the crash came. Bill Booth, editor of the Bonanza, seems to be losing little sleep over the prospect of having to dig up thirty thousand bucks. He declares the suit will work out fine for his advertising, on account of the publicity it will give his paper.

Receiver Frank Wildes of the State Bank and Trust company, has entered a suit against Editor W. W. Booth of the Tonopah Bonanza. Mr. Wildes asks \$30,000 for libel. Booth is known from one end of the state to the other as a writer who handles a subject without gloves and both before and after the investigation of the above receivership by the recent legislature, the Bonanza was very free in saying what it thought of the

conduct of the affairs of the State Bank and Trust company under the Wildes receivership.—Fallon, Eagle.

Thirty thousand suffragettes gathered in New York Saturday to participate in a demonstration for woman's suffrage. Not a single one will admit that she left her home and children to the mercy of a hired girl for the purpose of participating in the demonstration, and all would feel insulted if they were asked if their home cares were being neglected in the campaign of votes. Such is the strength of the argument.

Some of these days Tonopah will have real summer weather, in spite of the constant predictions of "fair and warmer."

HOW OLD YOU LOOK

Worn, and All Tired Out—It Is Not Necessary.

You act as though you just wondered how you are going to get through the rest of the winter and do your work.

You may be overworked or have had a bad cold which has left you without strength, ambition or much interest in life; in fact you are all run down.

Let us tell you that Vinol, our delicious cod liver and iron tonic is just the remedy you need to rebuild wasting tissues and replace weakness with strength.

A prominent Boston lawyer says: "My mother, who is 76 years of age, owes her good health to Vinol as since taking it she can walk farther and do more than she has for years. I consider it a wonderful blood making and strength creating tonic."

We have such faith in Vinol that if it does not quickly build you up, restore your strength and make you feel well again, we will return your money. Try Vinol on our guarantee. Miners Drug Store, Inc., Tonopah, Nev.
